SUSAR and Medical Special Operations Conference 2022

The State Urban Search and Rescue Alliance (SUSAR) and the Medical Special Operations Community are proud to invite all first responders to this year's official SUSAR and Medical Special Operations Conference (MSOC). The State Urban Search and Rescue Alliance has again partnered with the Medical Special Operations Community in 2022 and together will host a conference and training event.

We continue to provide military, federal, state, and local first responders with an opportunity to share their experiences, best practices, and ideas. Each year, our events continue to evolve to include current hot topics, the latest technological updates, and recent case studies from around the world.

-- Space is limited so please register ASAP --
